Entered according to Act of Congress, in the year 1859, by
U. C. RUTTER,
in the Clerk's office of the District Court of the United States,
for the Southern District of Ohio.

PREFACE.

A LARGE majority of mankind in all civilized countries, either borrow or lend money at some period of their lives. Perhaps nothing has caused more perplexity to creditors, debtors, and business men generally in all ages, than the difficulty of calculating interest promptly and correctly on different sums, for different periods of time, and at different rates per cent. per annum.

I am fully convinced from what has passed under my observation, that mistakes frequently occur in computing interest, sometimes in favor of the creditor, and sometimes in favor of the debtor; and neither party is ever cognizant of the fact. Justice demands that interest should be correctly computed.

My aim in preparing this book has been to make the calculating of interest so *easy* and *simple*, that every person of ordinary capacity can compute it correctly; and will therefore be under no obligations to others to do that for him which he is enabled to do for himself. If my success in this endeavor has been equal to the good will with which I have labored, I am satisfied.

All interest tables heretofore published, as well as books with interest already calculated, do not

fully meet the wants of the public. They calculate interest *on dollars only*, and not on cents or fractions of a dollar. While the system of calculating interest taught in this work, enables us to compute the interest *on any sum either large or small, whether dollars, cents or mills*, with the same facility and certainty, let the time be years, months, or days, or the rate 5, 6, 7, 8, 9, or 10 per cent. per annum.

The following are some of the peculiar characteristics of this book, which I believe are original :

1st. By a happy arrangement, we can turn to any time for which we wish to compute interest.

2d. We can calculate the interest on any sums for any number of days, months, and years, between one day and six years, by a *single* multiplication !

With the hope that this work may prove useful to *all* for whose benefit it has been prepared, and meet with the measure of success it may deserve, it is now submitted to the public

URIAH C. RUTTER.

LANCASTER, OHIO, 1859.

| 10 | 1.480244 | 1.628895 | 1.790848 | 1.967151 | 2.158924 |
| 11 | 1.539454 | 1.710339 | 1.898299 | 2.104851 | 2.331638 |
| 12 | 1.601032 | 1.795856 | 2.012196 | 2.252191 | 2.518170 |
| 13 | 1.665074 | 1.885649 | 2.132928 | 2.409845 | 2.719623 |
| 14 | 1.731676 | 1.979932 | 2.260904 | 2.578534 | 2.937193 |
| 15 | 1.800944 | 2.078928 | 2.396558 | 2.759031 | 3.172169 |
| 16 | 1.872981 | 2.182875 | 2.540352 | 2.952163 | 3.425942 |
| 17 | 1.947900 | 2.292018 | 2.692773 | 3.158815 | 3.700018 |
| 18 | 2.025817 | 2.406619 | 2.854339 | 3.379932 | 3.996019 |
| 19 | 2.106849 | 2.526950 | 3.025600 | 3.616527 | 4.315701 |
| 20 | 2.191123 | 2.653298 | 3.207135 | 3.869684 | 4.660957 |

Find by the table the amount of \$60 for 5 years, at 7 per cent., compound interest.

SOLUTION.—By the table the amount of \$1 for 5 years at 7 per cent. is $\$1.402551 \times 60 = \84.15306 Ans.

Proceed in the same way to get the amount at compound interest, on any sum, at either of the rates found in the table, from 1 to 20 years. To get the interest, subtract the principal from the amount.

RECEIPTS.

Wheeling, October 10th, 1859.

Received of Charles Smith, ten dollars in full of all accounts.

HENRY MILLER.

NOTE.—If a receipt is given "*in full of all accounts,*" it cuts off only the claims of accounts. But "*in full of all demands,*" cuts off all claims of every kind.

RECEIPT FOR MONEY ON ACCOUNT.

Lancaster, July 1st, 1858.

Received of George Tait, twenty dollars on account.

W. P. S.

RECEIPT FOR MONEY ON A NOTE.

Burlington, November 3d, 1858.

Received of David S. Barrett, one hundred dollars on his note for six hundred dollars, dated January 1st, 1856.

J. K.

NOTES.

No. 1.—A NEGOTIABLE NOTE PAYABLE TO ORDER.

\$100.

Cincinnati, May 1, 1858.

For value received, I promise to pay on demand to Benjamin S. Lawson, or order, one hundred dollars.

J. W. H.

No. 2.—A NEGOTIABLE NOTE PAYABLE TO BEARER.

\$125.

Boston, June 1, 1858.

For value received, ninety days after date, I promise to pay to Winthrop B. Smith, or bearer, one hundred and twenty-five dollars, at Hocking Valley Bank.

J. A. J.

No. 3.—A NOTE BY TWO PERSONS.

\$256.

New York, July 1, 1857.

For value received, we jointly and severally, promise to pay to Thomas J. Matthews, or order, two hundred and fifty-six dollars, with interest at ten per cent. per annum.

W. T. T.
W. B. S.

REMARKS ON NOTES.

“1. The person who signs the note is called the *drawer* or *maker* of the note; and the person who has the lawful possession of a note is called the *holder* of the note.

“2. A note is said to be negotiable or transferable, that is, the holder may sell it, if it contains the words *or order*, or the words *or bearer*. If these words were left out in the notes given in the forms, they would not be transferable.

“3. When the holder of a negotiable note payable *to order*, as Note No. 1, wishes to transfer it, he must *indorse* it, that is, write his name on the back of it. The holder of the note is then authorized to collect it from the drawer; but if the drawer refuses to pay it, the holder may collect it from the indorser.

“4. When a note is made payable to bearer, as Note No. 2, then the *drawer only* is responsible, and he must pay to the holder of the note.

“5. The words ‘*For value received*,’ should be expressed in every note, and the amount of money should always be written in words.

“ 6. The time at which a note is to be paid, should always be specified, but if no time is named, the drawer must pay when a demand is made.

“ 7. When a note payable at a future day, becomes due, it will draw legal interest, though no mention is made of interest.

“ 8. If two persons jointly and severally give their note (see Note 3), it may be collected of either of them, but not of both.

“ 9. If a note is given, payable on a fixed day in *certain other articles*, instead of money, if the payment is not made at the time, and in the manner specified in the note, the holder can claim payment in money.”

INTEREST.

"INTEREST is an allowance made by the borrower to the lender for the use of money. The sum loaned for which interest is paid, is the PRINCIPAL.

"The sum of the principal and interest is the AMOUNT.

"PER ANNUM, signifies *for one year*.

"RATE PER CENT. *per annum* is the number of dollars paid for the use of 100 dollars, or the number of cents paid for the use of 100 cents for one year.

"The distinctions in Percentage as Brokerage, Commission, etc., is this: in the latter, rate per cent. has no *regard to time*, whereas in interest, *time* is always considered.

"The term *per annum* is seldom used in connection with *rate per cent.*, but is always understood. Therefore, in interest *rate per cent.* always means *rate per cent. per annum*.

"LEGAL INTEREST is the *rate* established by law. Any rate *higher* than the legal rate is USURY.

"When no rate per cent. is mentioned, the *legal rate* where the business is transacted, is understood.

"The legal rate in Louisiana is 5 per cent.; in New York, South Carolina, Michigan, Wisconsin, and Iowa, 7 per cent.; in Georgia, Alabama, Florida, Texas, and Mississippi, 8 per cent.; in the *rest of the States*, and in the U. S. Courts, 6 per cent."

EXPLANATIONS.

"To get the interest at 5, 6, 7, 8, 9, and 10 per cent. per annum ON ANY SUM for any length of time, from ONE DAY TO SIX YEARS."

RULE I.

Multiply the sum upon which interest is to be calculated, by the *interest of one dollar, which will always be found opposite the time for which interest is to be computed.*

RULE II.

FOR POINTING OFF DECIMALS.

Point off from the *right hand* for decimals as many figures as there are decimal figures in the *multiplier* and *multiplicand* taken together. The figures to the left hand of the decimal point will be the *answer in cents.*

To reduce cents to dollars, divide by 100; that is, cut off two figures from the right hand.

EXAMPLE.

What is the interest of \$49 for 1 year, 1 month, and 6 days at 6 per cent. per annum?

SOLUTION.—In solving this example, first turn to page 33, and opposite the time 1 year, 1 month, and 6 days, will be found the *true multiplier*, 6.6, or six cents and six mills. Multiply \$49 by this sum; point off according to Rule 2. As there are no decimals in the multiplicand (\$49,) and but one in the multiplier (6.6), point off but one in the product. The answer is 323 cents and 4 mills; or three dollars twenty-three cents and four mills.

$$\begin{array}{r}
 \$49 \\
 6.6 \\
 \hline
 294 \\
 294 \\
 \hline
 \$3.23.4
 \end{array}$$

Proceed in the same manner to get the interest on *any sum*, however large or small, whether *dollars*, or *dollars, cents*, and *mills*.

To get the interest at 5, 7, 8, 9, and 10 per cent. per annum, use the tables on pages 88, 89, 90, 91, 92, 93, 94, 95, 96, and 97.

To get the interest at the above rates, first *add* the amounts together, opposite the *time* for which interest is to be computed. Or, get the interest separately for years, months, and days.

NOTE 1. TO AVOID USING FRACTIONS.—Multiply the sum upon which interest is to be computed, by the figures opposite the time for which interest is to be calculated, and under the word MULTIPLIERS, and divide the *Product* by the figure or figures, if any, under the word DIVISORS. Point off as before.

EXAMPLES.

What is the interest of \$108 for 9 months, at 10 per cent. per annum?

SOLUTION.—In solving this example, to avoid fractions, turn to page 97, opposite the time 9 months, and under the word *multipliers*, is found the number 15, by which, multiply the sum \$108, and *divide* the product by 2, found immediately to the right hand of 15, and under the word *divisors*. As there are no decimals in multiplier or multiplicand, the answer is eight hundred and ten cents, or \$8.10.

| | |
|--------|--|
| \$108 | |
| 15 | |
| 540 | |
| 108 | |
| 2)1620 | |
| 8.10 | |

“The best method of computing interest at any rate per cent. from *one to one hundred* per cent. per annum, is to first get the interest at six per cent. by Rule 1st, on page 23. This

interest is easily changed to any rate desired, by the following easy rule:"

RULE III.

Multiply the interest at *six per cent.* by the *rate* per cent. at which interest is to be computed, and always divide the product by *six*; or divide the interest at six per cent. by six, which gives the interest at one per cent. Then *multiply* the interest at one per cent. by the *rate* at which interest is to be computed.

EXAMPLE.

What is the interest of \$60 for 3 years, 5 months, and 27 days at 6 and 10 per cent. per annum?

SOLUTION.—In solving this example, turn to page 59, and opposite the time, 3 years, 5 months, and 27 days, will be found the interest of \$1 for this time

| | | |
|-------------|-----------|---------------------------------|
| cts. mills. | | |
| 20.95 | | |
| 60 | | |
| \$12.57.00 | Ans. Int. | (20.95). |
| 10 | [at 6 %. | For convenience, |
| 6)12570 | | place the largest number |
| | | above, and multiply it by \$60. |

As there are two decimals, \$20.95 Ans. Int. at point off two to the right hand [10 % in the product. The answer is found to be twelve hundred and fifty-seven cents, or twelve dollars fifty-seven cents at 6 per cent. per annum. To change this interest to ten (10) per cent., according to Rule 3d, multiply the interest at 6 per cent. by 10, the

rate to which the interest is to be changed, and divide the product by six. The answer is twenty dollars and ninety-five cents—\$20.95.

Proceed in the same way to change the interest on any sum at 6 per cent., to that of any other rate desired.

“By observing the tables at 6 per cent., it will be noticed that fractions can be entirely avoided, by making the time (for which interest is to be computed,) either *one day less, or one day more.*”

In computing interest, or getting the *time* between two dates, 30 days are counted a month, and 12 months a year.

NOTE 2. TO FIND THE TIME BETWEEN TWO DATES.—A note bearing date April 14, A. D., 1857, was paid February 12, A. D., 1859, required the time between these dates.

SOLUTION.—Always place the last named date above.

| YRS. | MOS. | DS. | |
|------|------|-----|--|
| 1859 | 2 | 12 | In writing down these dates, observe that February is the second month, and April the fourth month of the year. In subtracting, 14 |
| 1857 | 4 | 14 | |

1 9 28 *Ans.* days can not be taken from 12 days. Increase the 12 days by 30 (1 mo.), make the subtraction, and carry 1 to 4 months. As 5 months can not be taken from 2, increase the latter by 12 (1 year), make the subtraction, and carry 1 to 7 years, and subtract as before. *Answer* 1 year, 9 months, and 28 days.

The following is the LEGAL rule for computing interest on notes, bonds, etc., when partial payments have been made, sanctioned by the Supreme Court of the United States. The principle on which it is founded is, “that neither interest nor payment shall draw interest.”

RULE IV.

"First apply the partial payments made to the discharge of the interest then due.

"If the interest is less than the payment, the difference between the interest and payment goes toward discharging the principal; interest is then to be computed in the balance of principal remaining due.

"If the interest is greater than the payment, the surplus of interest must not be taken to increase the principal, but interest on the former principal continues to the time when the payments taken together are greater than the interest due; the surplus is then applied toward discharging the principal; then compute interest on the balance, as aforesaid."

LEGAL RULE FOR PARTIAL PAYMENTS.

"The rule for casting interest, when partial payments have been made, is to apply the payment in the first place, to the discharge of the interest then due.

"If the payment exceeds the interest, the surplus goes toward discharging the principal, and the subsequent interest is to be computed on the balance of principal remaining due.

"If the payment be less than the interest, the surplus of interest must not be taken to augment the principal, but interest continues on the former principal, until the period when the payments, taken together, exceed the interest due, and then the surplus is to be applied toward discharging the principal; and interest is to be computed on the balance, as aforesaid."—*Chancellor Kent*.

"REMARK.—A *partial payment* is payment of *part* of a note, or other obligation. The above rule is given in the language of Chancellor Kent, and is founded on this principle: "*that neither interest nor payment shall ever draw interest.*"

APPLEGATE & CO.,
BOOKSELLERS, PUBLISHERS,
STATIONERS AND
BLANK-BOOK MANUFACTURERS,

No. 43 MAIN ST., CINCINNATI.

"A good book is the best friend; the same to-day and forever."

APPLEGATE & Co., in addition to a large and varied assortment of *School, Classical, Theological, and Miscellaneous Books*, which they have constantly on hand, publish a series of valuable Standard Works, suitable for the family circle, as well as public libraries.

Among their publications may be found the following, to which they would respectfully invite attention. To these it is their intention to add the best works of the Standard Historical and other authors, and they trust that their selections will be such as to entitle them to a liberal share of the patronage of the book-buying public.

ROLLIN'S ANCIENT HISTORY.

The Ancient History of the Carthagenians, Assyrians, Babylonians, Medes and Persians, Grecians and Macedonians, including a History of the Arts and Sciences of the Ancients, with a Life of the Author. 2 vols. royal 8vo. Sheep, spring back, marble edge.

MOSHEIM'S CHURCH HISTORY,

Ancient and Modern, from the birth of Christ to the Eighteenth Century, in which the Rise, Progress, and Variations of Church Power are considered in their connection with the state of Learning and Philosophy; and the Political History of Europe during that period, continued up to the present time, by CHARLES COOTE, LL.D. 806 pages, 1 vol., 4to, spring back, marble edge.

GATHERED TREASURES FROM THE MINES OF LITERATURE,

Containing Tales, Sketches, Anecdotes, and Gems of Thought, Literary, Moral, Pleasing and Instructive. Illustrated with steel plates. 1 vol. 8vo. Embossed.

To furnish a volume of miscellaneous literature both pleasing and instructive, has been the object of the editor in compiling this work, as well as to supply, to some extent, at least, the place that is now occupied by publications which few will deny are of a questionable moral tendency.

**DR. ADAM CLARKE'S COMPLETE COMMENTARY ON
THE OLD AND NEW TESTAMENTS,**

With a portrait of the author, engraved expressly for this edition, accompanied with Maps, etc. Sheep, spring back, marble edge.

**DR. ADAM CLARKE'S COMMENTARY ON THE NEW
TESTAMENT.**

2 vols. super royal 8vo. Sheep, spring back, marble edge.

THE COMPLETE WORKS OF THOMAS DICK, LL. D.

11 vols. in 2. Illustrated with numerous engravings and a portrait. 2 vols. royal 8vo. Sheep, spring back and marble edge.

This edition is printed from entirely new plates, containing the recent revisions of the author, and is the only COMPLETE edition published in the United States.

THE SPECTATOR.

With Biographical Notices of its Contributors. 1 vol. royal 8vo., 750 pages, with a portrait of Addison. Sheep, spring back, marble edge.

PLUTARCH'S LIVES.

With Historical and Critical Notes, and a LIFE OF PLUTARCH. Illustrated with a portrait. 1 vol. 8vo. Sheep, spring back, marble edge.

This edition has been carefully revised and corrected, and is printed upon entirely new plates, stereotyped by ourselves, to correspond with our library edition of Dick's Works, etc.

PETERSON'S FAMILIAR SCIENCE:

Or, the Scientific Explanation of Common Things.

Edited by R. E. PETERSON, Member of the Academy of Natural Sciences, Philadelphia. 18mo, neatly bound in cloth.

ELEMENTS OF THE GERMAN LANGUAGE.

A Practical Manual for acquiring the art of Reading, Speaking, and Composing German. By THEODORE SODEN, Professor of the German Language and Literature, at the Woodward and Hughes' High Schools of Cincinnati. 1 vol. 12mo, half cloth.

METHODISM EXPLAINED AND DEFENDED.

By Rev. JOHN S. INSKIP. 12mo, embossed cloth.

CHRISTIANITY.

As Exemplified in the Conduct of its Sincere Professors.

By Rev. W. SECKER. This is a book of rare merit, full of thought-exciting topics, and is particularly valuable as an aid to Christian devotion. 12mo, embossed cloth.

SACRED LITERATURE OF THE LORD'S PRAYER.

In which the terms are defined, and the text carefully considered. 12mo, cloth.

FARMER'S HAND-BOOK.

By JOSIAH T. MARSHALL, author of "Emigrant's True Guide." 12mo, cloth, 500 pages.

NOTES ON THE TWENTY-FIVE ARTICLES OF RELIGION,

As received and taught by Methodists in the U. S.

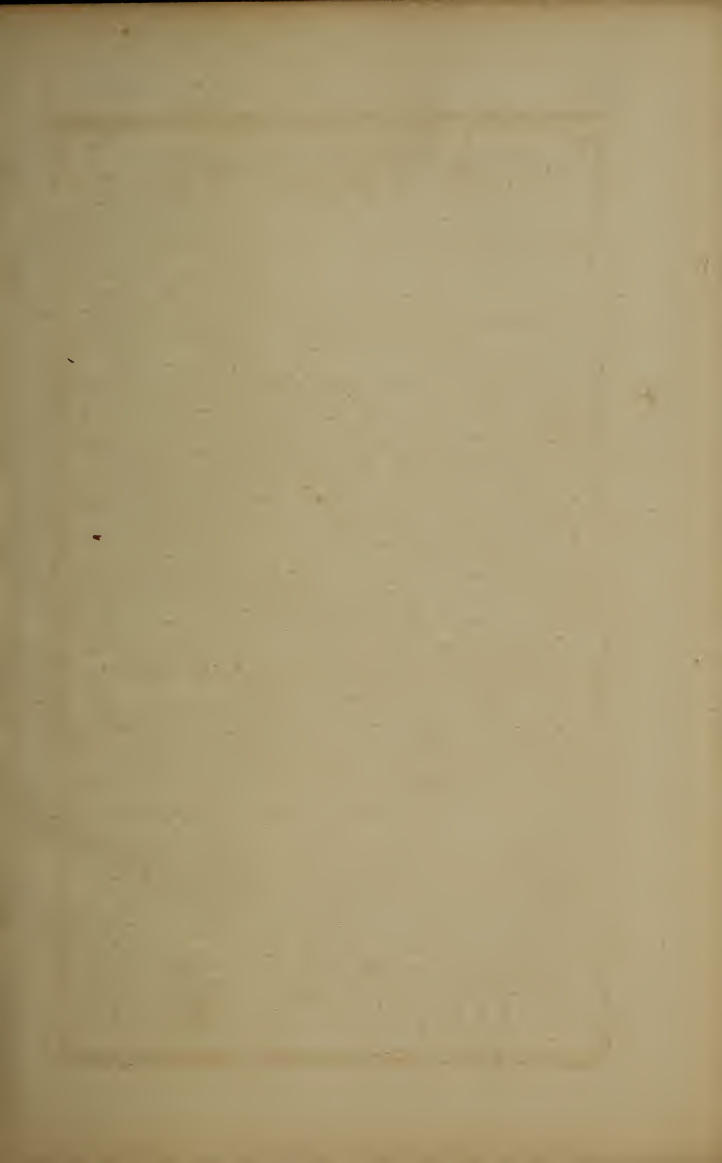

In which the doctrines are carefully considered and supported by the testimony of the Holy Scriptures. By Rev. A. A. JIMESON, M. D. 12mo, embossed cloth.

This book contains a clear exposition of the doctrines of the Articles, and of the errors against which the Articles were directed, written in a popular style, and divided into sections, for the purpose of presenting each doctrine and its opposite error in the most prominent manner.

DICK'S THEOLOGY.

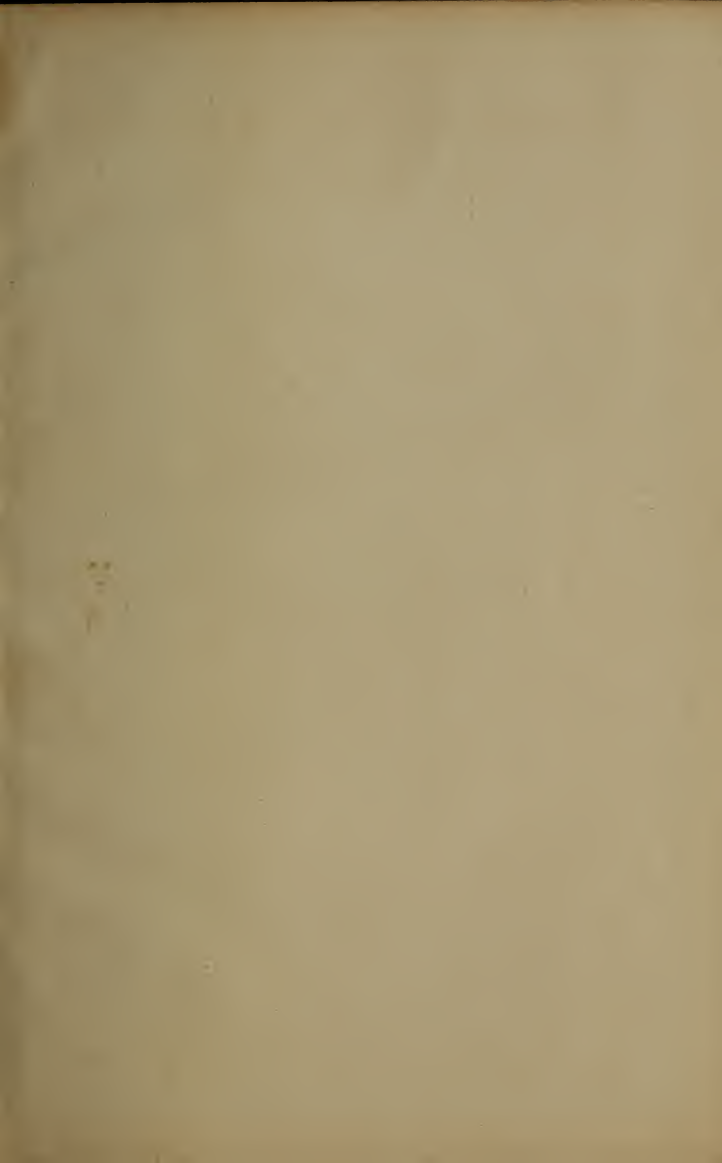

Lectures on Theology. By the late Rev. JOHN DICK, D. D., Minister of the United Associate Congregation, Grayfriars, Glasgow, and Professor of Theology to the United Session Church. Published under the superintendence of his son. With a Biographical Introduction. By an American editor. With a steel portrait of Dr. Dick.

1 vol. Imp. 8vo, sheep, marble edge, spring back,
Do do do do do embossed, do
Do do do do do half antique, do
Do do do do do Imt. Turkey, full gt. do
Do do do do do Super Turkey, beveled
sides, full gilt.
